

Dale, Ernest Abell

June 1916

June 16th, 1916

F. Dale, Esq.,

University College, Toronto.

Dear Mr. Dale:

I am sorry that through my absence in Winnipeg I have been unable to send you before this a letter that you might use in your application for the vacant professorship in Queen's University. While we should regret very much your leaving Toronto I do not feel that it would be right on our part to put any obstacle in the way of your obtaining a position at Kingston that may be better than anything we can offer you in the immediate future. The accounts that I have uniformly received of your work among the students make it possible for me to give you an unreservedly favourable testimonial in regard to your qualifications for the position for which you are now applying. I have always heard that your work is very satisfactory and your record in Oxford as well as the experience that you have had before coming here support the judgment that we have formed of your ability during these years in the University of Toronto.

With kind regards, I am,

Yours sincerely,

President.
